

Experience Innovation

Model: 2" Single Diaphragm Pump

Name: 2D

Diaphragm pumps are ideally suited for construction, municipal and industrial applications. The 2D is perfect for pumping muddy water, sludge or any liquid with a high percentage of solids. One of its best features is the ability to run dry indefinitely without damage.

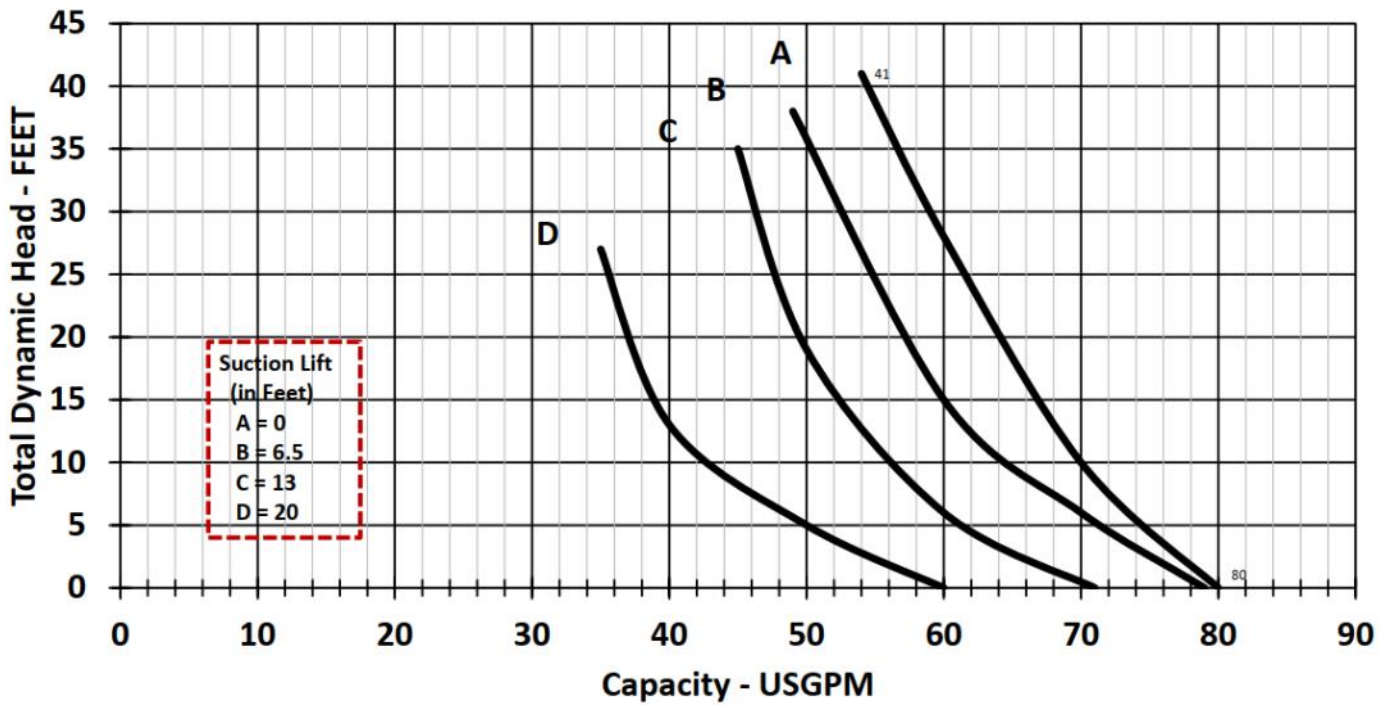

Photo shown may not be exact model.

Consult factory for options.

Pump End Materials	
Pump Casing	Rugged, cast aluminum with integral solids channel and drain valve
Top Housing	Cast aluminum
Diaphragm	Dry running, neoprene with nylon cloth insert, field replaceable
Connecting Rod and Plate	Constructed of rigid type cast aluminum, available with spring loaded connecting rods, with self lubricating bearings
Eccentric Crank and Bearing	Class 30 cast iron with needle roller type bearing.
Clappets	Dry running, non-clogging flapper style, neoprene with class 30 cast iron weighted insert, field replaceable
Suction and Delivery	Cast Aluminum
Manifolds	Class 30 cast iron
Surge Suppression Chamber	ASTM A-36 threaded to suction for water hammer and shock protection
Gaskets	Neoprene
Eccentric Guard	PVC

Technical Specifications			
Suction Size	2 in (5.08 cm)	Approximate Dry Weight	150 lbs (68.04 kg)
Discharge Size	2 in (5.08 cm)	Fuel Capacity	2.64 Qts. (2.49 L)
Maximum Solids Handling	2 in (5.08 cm)	Maximum Operating Speed	64 strokes/min
Maximum Operating Temperature	200° F (93.33° C)	Maximum Operating Pressure	25 psi (149 kPa)

Honda GX120T1QX2 (Gas) — 4 hp @ 3,600 rpm

Typical Operating Speed	3,600 rpm
Maximum Head	41 ft (12.3 m)
Maximum Flow Capacity	80 gpm (18.2 m ³ /hr)
